Tuesday,
September 18th

Welcome

to the new school year!

We are excited to begin our new curriculum... **HighScope**

What is the HighScope Curriculum?

HighScope's educational approach emphasizes "active participatory learning." Active learning means students have direct, hands-on experiences with people, objects, events, and ideas. Children's interests and choices are at the heart of HighScope programs. They construct their own knowledge through interactions with the world and the people around them. Children take the first step in the learning process by making choices and following through on their plans and decisions. Teachers, caregivers, and parents offer physical, emotional, and intellectual support. In active learning settings, adults expand children's thinking with diverse materials and nurturing interactions.
